

**ALL INDIA INSTITUTE OF MEDICAL SCIENCES
ANSARI NAGAR, NEW DELHI – 110 608
EXAMINATION SECTION**

**IMPORTANT NOTICE NO.81/2018 DATED
PROSPECTIVE APPLICANTS ADVANCED REGISTRATION(PAAR) FACILITY for
AIIMS-MBBS Entrance Examination-2019 onwards**

All India Institute of Medical Sciences, New Delhi has proposed to Initiate Online Registration of applicants well in advance. Registrations will be a two-stage process comprising of Basic Registration and Final Registration.

From past experience it has been found that a majority of rejections are due to Improper filling of details other than educational qualifications. In the first stage applicants desirous of appearing in the AIIMS-MBBS Entrance Examination in future will be able to initially register by filling basic details and uploading images almost six month in advance (Basic Registration). These particulars and images will be screened, there would be adequate time to correct errors and deficiencies. The candidates will be informed whether their registration is accepted, and their details will be stored with an unique identification number, Thus, candidates will not be subjected to the pressures of last minute rush and the fear of rejection of applications without any time left to make amends. Basic Registration process is free of any charges and thus no payment shall be collected at this stage. Since applicants may not have completed their eligibility of examinations etc, certain details may not be collected at the time of Basic Registration.

At a specified time prior to the entrance examination for the year (AIIMS-MBBS-2019) the Basic Registration process will be closed and no further applications for that particulars year will be allowed. The Prospectus with Examination city will be uploaded before start of Final Registration. The applicants who have completed Basic Registration and this has been accepted can thus decide to either appear for the examination of this year or subsequently. In case any applicant does not wish to appear this year, he/she need not proceed to fill Final Registration but his/her Basic Registration details will be stored and will be valid for the subsequent year, In case the applicant desires to take the examination as announced, he/she can proceed for Final Registration. Please note that rejected Basic Registration applicants are not eligible to proceed for Final Registration. In Final Registration applicants can fill remaining details such as qualification details, choose the available city for examination and make the necessary payments. These applicants will be eligible to be issued Admit Cards for that examination subject to fulfilment of eligibility criteria as mentioned in the respective Prospectus.

After completion of Final Registration and uploading of Admit Cards, the Basic Registration process will then resume and continue for subsequent year. Those who have already completed Basic Registration once need not fill these details again whether they appear for AIIMS-MBBS Entrance Examination-2019 or not. However, every time the dates for Final Registration for subsequent Entrance Examinations are made, the Final Registration will have to be completed. Thus, while Basic Registration is enduring, Final Registration is examination year specific.

Thus, all prospective candidates will have the facility of ensuring their basic registration details are completed and accepted in all respects, well in advance. It would also ensure that only those applications that are complete in all respects and accepted at the Basic Registration stage are permitted to make the Final Registration including payment. Basic Registration details need not be filled, and images need not be uploaded repeatedly.

This prospective Applicants Advanced Registration (PAAR) facility is being initiated for AIIMS-MBBS Entrance Examination 2019 onwards and will be continued in future also. For details please visit www.aiims.org from time to time.

The expected date for starting of Basic Registration is 2nd week of November-2018 and Final Registration is 1st week of February-2019. Again, it must keep in mind that only those candidates who will fill the Basic Registration form and correct their errors and deficiencies within stipulated time as well as found their Basic Registration in order, will only be eligible to fill Final Registration for AIIMS-MBBS-2019 Entrance Examination.
