ANSARI NAGAR, NEW DELHI-110608
EXAMINATION SECTION

IMPORTANT NOTICE NO. 9/2019

PROSPECTIVE APPLICANTS ADVANCED REGISTRATION (PAAR) FACILITY

M.Sc. Nursing / M.Sc. Courses / M. Biotechnology Entrance Examination-2019 onwards

All India Institute of Medical Sciences, New Delhi has proposed to initiate Online Registration of applicants well in advance. Registration will comprise of three stages / steps : Basic Registration, Generation of Code for Final Registration and Final Registration (Payment of fee and City Choice).

From past experience it has been found that a majority of rejections are due to improper filling of details other than educational qualifications and improper images. In the first stage applicants desirous of appearing in the AIIMS – **M.Sc. Nursing / M.Sc. Courses / M. Biotechnology -2019** Entrance Examination in future will be able to initially register by filling basic details and uploading images almost six month in advance (Basic Registration). These particulars and images will be screened and there would be adequate time to correct errors and deficiencies. Candidates will be informed whether their registration is accepted, and their details will be stored with a unique identification number. Thus, candidates will not be subjected to pressures of last minute rush and fear of rejection of applications without any time left to make amends. Basic Registration process is free of any charges and thus no payment shall be collected at this stage. Since applicants may not have completed their eligibility of examinations etc, certain details may not be collected at the time of Basic Registration.

Currently only one time Basic Registration is required for all Postgraduate Courses [AIIMS PG, **M.Sc. Nursing / M.Sc. Courses / M. Biotechnology** etc.]. Therefore, following accepted Basic Registration for PG Courses, one can complete Generation of Code, Final Registration for any of the Postgraduate Courses subsequently.

At a specified time prior to the entrance examination [**M.Sc. Nursing / M.Sc. Courses / M. Biotechnology**] for the year **2019**, the Basic Registration will be closed and no further applications for that particular year will be allowed. The Prospectus with Examination city will be uploaded before start of Generation of Code for Final Registration. Applicants who have completed Basic Registration that have been accepted can thus decide to either appear for the examination of this year or subsequently. In case any applicant does not wish to appear this year, he/she need not proceed to Generation of Code for Final Registration and Final Registration (Payment of fee and City Choice). His/her Basic Registration details will be stored and will be valid for the subsequent years. In case the applicant desires to take the examination as announced, he/she can proceed for Generation of Code for Final Registration and Final Registration (Payment of fee and City Choice). Please note that applicants whose Basic Registrations are rejected are not eligible to proceed for Generation of Code and Final Registration. In Final Registration applicants can fill remaining details such as qualification details, choose the available city for examination and make the necessary payments. These applicants will be eligible to be issued Admit Cards for that examination subject to fulfilment of eligibility criteria as mentioned in the respective Prospectus.

After completion of Final Registration and uploading of Admit Cards, the Basic Registration process will then resume and continue for subsequent year. Those who have already completed Basic Registration once need not fill these details again whether or not they appear for AIIMS- **M.Sc. Nursing / M.Sc. Courses / M. Biotechnology -2019** Entrance Examination. However, every time the dates for Final Registration for subsequent Entrance Examinations are made, the steps of Generation of Code & Final Registration will have to be completed. While Basic Registration is enduring, Generation of Code for Final Registration and Final Registration (Payment of fee and City Choice) is examination specific.

All prospective candidates will have the facility of ensuring their Basic Registration details are completed and accepted in all respects, well in advance. It would also ensure that only those applications that are complete in all respects and accepted at the Basic Registration stage are permitted to Generate Code for Final Registration and complete Final Registration (Payment of fee and City Choice). Thus Basic Registration details need not be filled, and images need not be uploaded repeatedly.

This Prospective Applicants Advanced Registration (PAAR) facility is being initiated for AIIMS- **M.Sc. Nursing / M.Sc. Courses / M. Biotechnology -2019** Entrance Examination onwards and will be continued in future also. For details please visit www.aiimsexams.org from time to time.

The expected date for starting of Basic Registration is First week of February and Final Registration is 2nd week of March-**2019**. Again, it is reiterated that only those candidates who fill the Basic Registration form and correct errors and deficiencies within stipulated time and whose Basic Registration are accepted, will be eligible to complete Final Registration for AIIMS- **M.Sc. Nursing / M.Sc. Courses / M. Biotechnology -2019** Entrance Examination.
