AIIMS-MBBS Entrance Examination 2019: Important Advisory

Ref. No.F.AIIMS/Exam.Sec./Advt./5-6/2018-MBBS-2019

Dated: 20.05.2019

Dear Candidate,

As you prepare to appear for the AIIMS MBBS Entrance Examination this weekend on 25 May 2019 or 26 May 2019, we wish you the very best!

We are aware of the hard work put in by each of you. With the level of competition in this examination, where even small differences in marks may matter, it does not necessarily mean that those who unfortunately are not selected are incapable of pursuing a career in medicine. Just relax and give your best on that day.

We would like to inform you that to ensure strict confidentiality, integrity and fairness of every examination certain steps are taken right from the stage of registration. Many of these are in place to prevent unfair practices such as impersonation, use of transmitting devices, sneaking in material into the examination hall for copying etc. Only the most deserving should be selected. Obviously, for every candidate who is unfairly selected, another will be unfairly pushed out of the competition. We therefore seek your assistance towards smooth-conduct of the examination. Please comply with certain requirements and co-operate during frisking. Those who do not allow to be frisked shall not be permitted into the examination centre. We assure you that these measures, however inconvenient these may seem, will benefit you who are honest, hardworking and have toiled tirelessly towards fulfilling your dreams and the aspirations of your parents, family and teachers. We request candidates, parents, guardians and well-wishers to adhere to the following instructions as well as those in the Admit card and Prospectus. Remember that these are uniformly applicable in all centres throughout the length and breadth of this country. Therefore, please do not argue or plead with the officials on duty since any exception made in one instance, however reasonable it may seem personally, may not be fair and just to other candidates in the same or in other centres. Also, every examination has its own unique procedures and hence, please do not make comparisons to justify your views.
